## #6301-G LUCKY SLIPPED RIB MULTI DIRECTIONAL TRIANGLE SHAWL

Designed By: Barry Klein

### PATTERN INSTRUCTIONS:

#### Notes:

First half of shawl is knit from top down with decreases along one edge. Please learn to read the knitting as the Slip St. will sit up on top so you can see the pattern clearly after a few rows. Decreases happen every RS row so staying in pattern on the RS should not be a problem. Also note that the yarn is different on inside of ball than outside. Outside has "streaks" that start and stop until about  $\frac{3}{4}$  of the way to the center. At this point the yarn is only shaded with no additional streaks. The yarn is designed this way. You can work from inside or outside of the skein as the entire skein will be used.

#### Side 1/Vertical Side:

With #11 needle and Lucky, Cast on 87sts. Work Row 2 of pattern to establish pattern. Continue in Slipped Rib St. with Row 1, decreasing every RS row as follows:

RS Row: Work in Slipped Rib pattern until 3sts remain. K2-tog, K1.

WS Row: Work stitches as they appear to stay in pattern.

Continue in this manner until all stitches are gone. Fasten off yarn.

#### Side 2/Horizontal Side:

With #11 needle and Lucky, Pick up 87sts along the long straight side edge from cast on down to point. Work Row 2 of pattern to establish pattern. Continue in Slipped Rib St. with Row 1, decreasing every RS row as follows:

RS Row: Work in Slipped Rib pattern until 3sts remain. K2-tog, K1.

WS Row: Work stitches as they appear to stay in pattern.

Continue in this manner until all stitches are gone. Fasten off yarn.

#### Finishing:

Bury tails.

Rev: 10/1 - Stitch multiple, Cast on and pick up numbers.
